APPLICATION OF TARIFF

B. REGULATIONS

1. Applications of Business and Residence Rates

The determination as to whether customer service (as distinguished from Public Telephone Service), except Semipublic Telephone Service, is furnished at business or residence rates is based on the location and character of use, made of the service. The type of directory listing may, in some cases, also serve as a satisfactory basis for determining whether business or residence rates apply.

Business Rates

Service is classified and charges for as business service where the use is primarily or substantially of a business, professional, institutional or occupational nature, or where a business directory listing is furnished, including farm businesses that utilize a business format in the telephone directory, except as provided in the following paragraph.

Residence Rates

Service is classified and charged for as residence service where the primary use of the service is of a domestic nature and where the business use, if any, is merely incidental.

Included in this classification is service subscribed to by a nonprofit association of owners of residential condominiums for use with customer provided door answering equipment.

2. Application of Seasonal Service
